**MAYOR'S REPORT****TABLING OF FINAL MEDIUM-TERM REVENUE AND EXPENDITURE FRAMEWORK FOR 2019/2020 2020/2021 AND 2021/2022****BY HIS WORSHIP THE MAYOR OF ULUNDI, CLLR M.W. NTSHANGASE. AT THE COUNCIL CHAMBER OF THE ULUNDI MUNICIPAL****COUNCIL ON 29 MAY 2019**

Honourable Speaker I would like to thank you for this opportunity I have been offered. I would like to greet you Honourable Speaker and the Amakhosi present, Councillors, Municipal Manager and the Administration I greet you all. Honourable Speaker I am standing here in front of this house to table the Medium-Term Revenue and Expenditure budget for the 2019/2020 as well as two outer years 2020/2021 and 2021/2022.

I would like to remind the house that our Municipality is still among those struggling when it comes to development due to a smaller percentage that get allocated to us by the other two spheres of government. But again, with as little resources as they are we try our utmost best to reach the poor that we serve by trying to balance the services to all.

- Our 24 Wards are scattered and most of them are rural where infrastructure is still a challenge and that makes it very difficult for this Municipality to distribute service delivery equally.
- While this Municipality consists of 24 Wards there is no tax base since, in terms of the current Municipal Property Rates Act and Rates Policy, property rates are not levied on residential properties in rural areas, but only on Government institutions.
- In the so-called urban area within Ulundi Municipality there are no factories where the Municipality can maximise collection of property rates and other Municipal services.
- The Infrastructure funding that we get annually from the Government through MIG (Municipal Infrastructure Grant) programme is very minimal and that is why there are still backlogs in our infrastructure.

- o No matter what fiscal disciplinary measures we implement to maximise electricity revenue, the government sanctioned disparity in terms of an annual percentage of increase NERSA grants to Eskom as opposed to a percentage granted to municipalities that has perpetually reduced the income realised through the sale of electricity, coupled with the Seasonal Charge that Eskom is, for ages charging Ulundi Municipality when the municipality was only granted a permission by NERSA to levy this charge on certain businesses. It is also noted with concern that Eskom has been continuously charging this Municipality the so-called rural electricity subsidy at an average amount of R600 000.00 per month, and I have accordingly commissioned the Municipal Manager to raise this issue with NERSA failing which Section 44 of the MFMA will have to be applied.
- o The MIG allocation per annum as again Gazetted in DORA for 2019/2020 by Government makes an outcry by especially rural communities which is an unfortunate situation that will remain with us for many years to come. Our budget has the following highlights:

#### REVENUE

NO.	ITEM	AMOUNT (R'000)

Honourable Speaker and Colleagues, it must be noted that National Treasury has issued Circular Number 71 which deals with Financial ratios and norms. Municipalities need to budget for repairs and maintenance at a rate of not less than 8% of the Property, Plant and Equipment. National treasury guidelines for salary increases of 5.2% for section 56 and 57 Managers and also 6.5% for other employees has been considered when preparing this Final Budget as per latest Budget Circular Number 93 issued. Honourable Speaker as well as my colleagues, I would like to emphasise that this Final Budget has been prepared in compliance with

Municipal Budget Reporting Regulations and will be submitted to both National and Provincial Treasuries in an electronic copy as well as hard copies in the required format (A Schedule MSCOA Version 6.3).

With those words I wish to thank all of you for this opportunity. May Almighty GOD bless you.

## **EXECUTIVE SUMMARY**

The application of sound financial management principles for the compilation of the municipality's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The municipality's business and service delivery priorities were received as part of this year's planning and budget process. Where appropriate, funds were transferred from low to high priority programmes to maintain sound financial stewardship. A critical review was also undertaken of expenditures on noncore and 'nice to have' items. The municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers.

The budget process occurred according to the budget timetable approved by Council in August 2018. This ensured compliance with the MFMA and subsequent circulars in the preparation and approval of the multi-year budget. The Budget and Medium-Term Revenue and Expenditure Framework (MTREF) was also prepared taking cognizance of the contents of the Municipal Finance Management Act No 56 of 2003, Circular No. 94 and the MFMA Budget Formats Guide received from National Treasury (Version 6.3).

The main challenges experienced during the compilation of the 2019/2020 Final Budget and MTREF can be summarized as follows:

- The ongoing difficulties in the national and local economy;
- Ageing roads and electricity infrastructure;
- The need to reprioritize projects and expenditure within the existing resource given the cash flow realities and declining cash position of the municipality.
- The increased cost of bulk electricity (due to tariff increases from Eskom), which is placing upward pressure on service tariffs to residents.
- Continuous high tariff increases are not sustainable – as there will be a point where services will no longer be affordable;
- Wage increases for municipal staff that continues to exceed consumer inflation, as well as the need to fill critical vacancies.
- The alignment of A schedule cashflow to data strings.

The following budget principles and guidelines directly informed the compilation of the 2019/2020 Final Budget and MTREF:

- The 2018/2019 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as the upper limits for the new baselines for the 2019/2020 Final Budget;
- Tariff increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk electricity. In addition, tariffs need to address infrastructure backlogs;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;

In view of the aforementioned, the following table is a consolidated overview of the proposed 2019/2020 Final Budget and Medium-term Revenue and Expenditure Framework:

<b>Description</b>	<b>2019/2020</b>	<b>2020/2021</b>	<b>2021/2022</b>

#### References

1. Must reconcile with 'Budgeted Financial Performance (Revenue and Expenditure)
2. Must reconcile to supporting documentation on staff salaries
3. Insert other categories where revenue or expenditure is of a material nature (list separate items until 'General expenses' is not > 10% of Total Expenditure)
4. Expenditure to meet any 'unfunded obligations'
5. This sub-total must agree with the total on SA22, but excluding councillor and board member items
6. Include a note for each revenue item that is affected by 'revenue foregone'
7. Special consideration may have to be given to including 'goodwill arising' or 'joint venture' budgets where circumstances require this (include separately under relevant notes)
8. Repairs and Maintenance is not a GRAP item. However to facilitate transparency, municipalities must provide a breakdown of the amounts included in the relevant GRAP items that will be spent on Repairs and Maintenance.
9. Must reconcile with Repairs and Maintenance by Asset Class (Total Repairs and Maintenance) on Table SA34c.
10. Only applicable to municipalities that have adopted the 'revaluation method' in GRAP 17. The aim is to prevent overstating 'depreciation and asset impairment'
